**1. New Product**

**2. Mission Fit**

**3. Process**

**4. Portfolio Fit**

**5. Marketing Mix**

**6. Product Elements**

**7. Lifecycle**

**8. Diffusion**

**9. Global**

**10. Success Factors**

# 1. New Product

# What is Slack Symposium?

- A **conferencing solution**, leveraging **seamless integration** with the existing **Slack** platform
  - Includes scheduling, invitation, etc.
- Also includes a new optional add-on...

# Symposium, meet *Surreal*

- **Slack Surreal** is an **AR/VR** headset enabling more **engagement** and **interaction**
- **See** and **interact** with other attendees

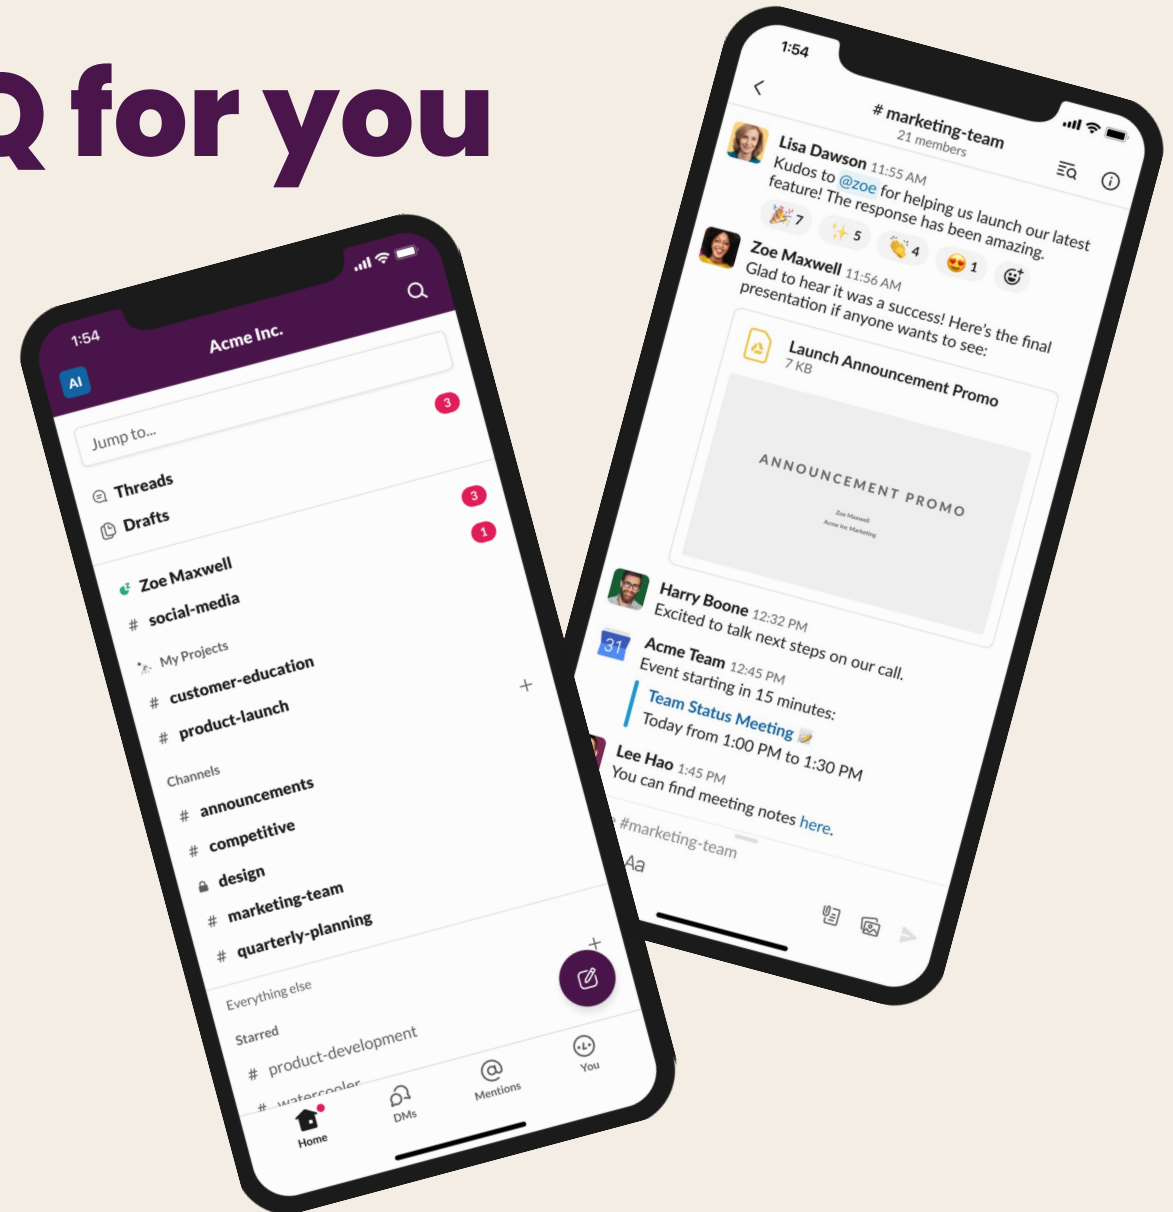

## 2. Mission Fit

# A holistic digital HQ for you

- **Slack** provides a **holistic experience** in a digital world
- Builds on our **consistency** and **seamless integration**
- **Reduces** the **need** to **"travel"** to other platforms

# 3. Process

# Development

- **Slack Symposium**
  - Allow software engineers to **build** and **integrate the product**
- **Slack Surreal**
  - **Partner** with **Meta** and rebrand **Quest headsets**

# Announcement

- **Announced** at both **Slack Frontier** and **Salesforce Dreamforce**
- **Key to communicating value** to **stakeholders** and **shareholders**

# Launch

- **Free beta test** with smaller companies
  - Allows time to stress test and improve product
- Full launch later to all companies

# 4. Portfolio Fit

# We already do huddles...

- One-to-one **voice** and **video** calling **already exists** in Slack
- Integration **reduces** the **pain** of scheduling and inviting

# ...so let's do symposiums

- **Surreal** and **Symposium** add a **fun** and **casual** element
- **Share** snacks, drinks, and even words (we know you do it) with colleagues in **virtual symposiums**

# 5. Marketing Mix

# Product

- **Symposium + Surreal**, a new way to **conference**
  - **Whisper** to your seatmate
  - **Easily** retrieve past **symposiums**

# Promotion

- **Free trial** to show the **necessity** and enhance the experience
- **Landing page** to **emphasize** the **value** and provide **key information**

# Price

- Software
  - **More** features and **competitive** pricing
- Hardware
  - **Below** traditional B2C costs through partnership

# Place

- Obtain through **Slack** or **Salesforce**
  - Symposium and Surreal will be available online

# 6. Product Elements

# How do we stand out from the rest?

- **Seamless** notetaking
- **Optional surveys** before and after symposium
- **Placards** with **relevant info** and opportunities for **post-symposium networking**
- Option to **record** the symposium

# 7. Lifecycle

# Introductory Stage

- **Work closely** with companies during beta test to **improve** and **tailor** offering
- Need to **effectively communicate** value of **Symposium** and **Surreal**

# Growth Stage

- Need to **effectively communicate** value of **Symposium** and **Surreal** in relation to competitors

# Maturity Stage

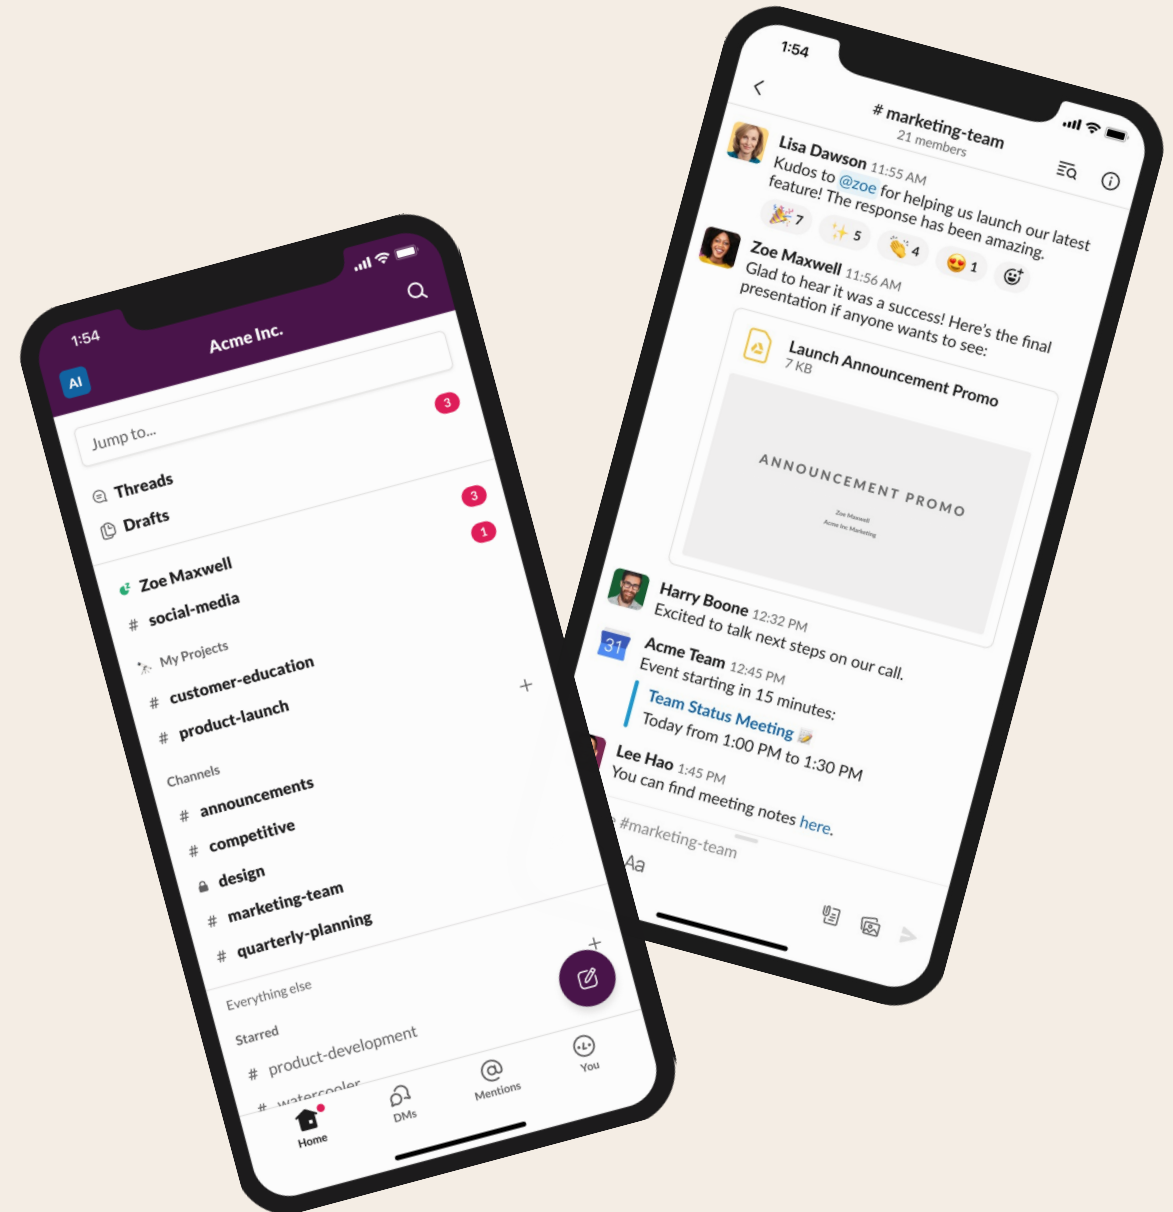

- Need to consider the possibility of **price discounts** or **adding low-cost features**

# Decline Stage

- Might shift focus from solely on **Symposium + Surreal** to **overall offering**

# 8. Diffusion

# Complexity and Compatibility

- A **wide range of features** with an **easy-to-use interface**
- **Symposium** works with existing devices; **Surreal** exists to **enhance** and add on

# Relative Advantage

- **Integration** reduces travel between various platforms
- **AR/VR** engages the user and **enhances the experience**, providing **new levels of interactivity**

# Observability and Trialability

- **Features** and **advantages** must be **made clear** to users
- **Free trial reduces** buyers' **risks**

# 9. Global

# We're multilingual

- **Symposium + Surreal** will be supported across at least 12 languages

# Now let's make you multilingual

- **Symposium + Surreal** will utilize real-time translation to bridge the gap across languages

# 10. Success Factors

# We're a multi-national company

- Slack **shows** and **will continue to show** the **necessary commitment** towards **global markets**

# Pacing toward early adopters

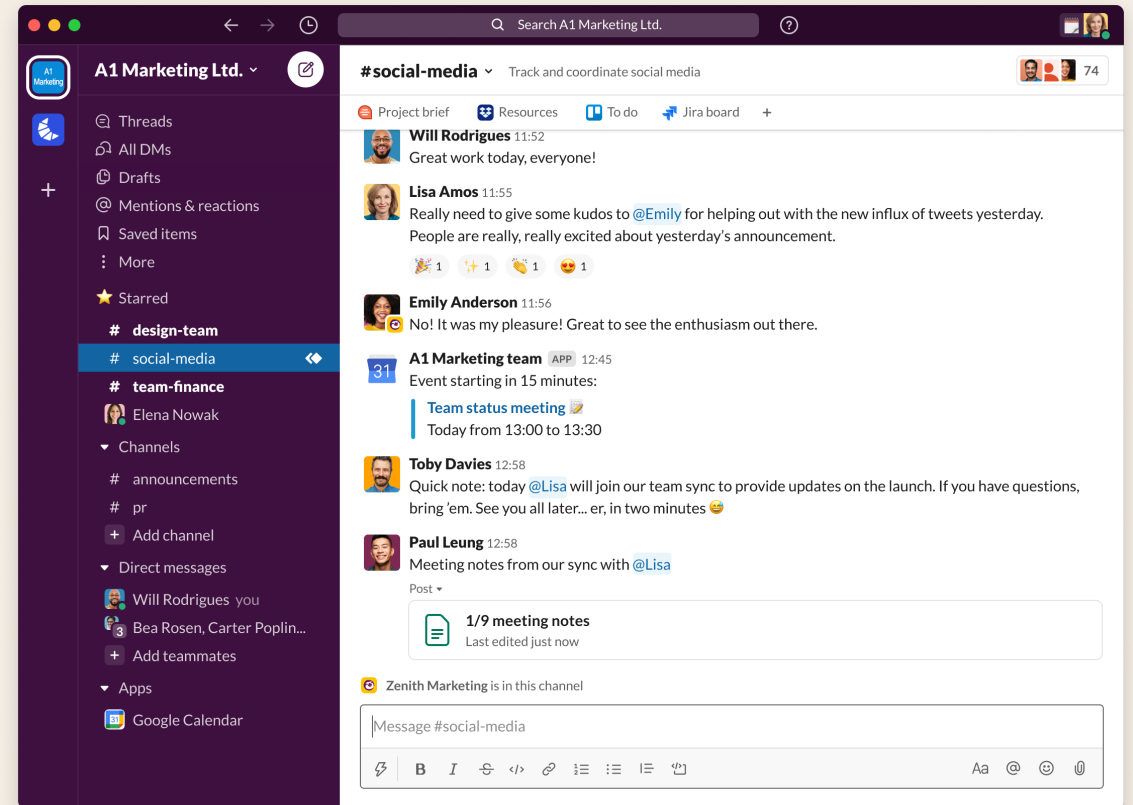

- Our **large existing user base** and **wide reach** enable a **quick path to early adopters**

# Ease-of-Use and Ecosystem

- A **simple/friendly UI/UX** enable Slack to **work well** with **start-ups** and **industry leaders alike**
- Our **ecosystem** and **APIs** **reduce the need** for additional software

# Thank you
